

**Can I drink the water?**

No. The city is recommending that you do not drink South Milwaukee tap water until further notice.

**When can I drink the water?**

Please wait until the city gives the all clear that it is safe to drink South Milwaukee tap water. Please monitor local media outlets, the South Milwaukee website and other sources for information updates.

**Is the water contaminated?**

There is no testing to indicate that South Milwaukee tap water is contaminated. The order to not drink city tap water is a merely a precaution at this point, and we will continue to do further testing.

**What if I drank South Milwaukee water on Friday?**

If you already drank or used the water on Friday, please monitor for symptoms of diarrhea, cramps, nausea or headaches. Call your health care provider if you experience these symptoms.

**What do I do if I feel sick?**

If you experience symptoms of diarrhea, cramps, nausea or headaches you should contact your health care provider.

**Can I cook with South Milwaukee tap water?**

No. Please use bottled water for cooking until further notice.

**Can I take a bath or shower?**

Adults may bathe or shower as usual, but please keep this to a minimum to conserve water. Infants should not be bathed in South Milwaukee tap water until further notice that the water is completely safe.

**Can I brush my teeth with tap water?**

No. Please do not use tap water to brush your teeth. Bottled water is recommended.

**Can I wash dishes?**

Yes, you can wash dishes as you normally would, except for dishes used by infants. Please wash these with bottled water or some other means. And remember to please conserve if at all possible.

**Can I wash off my table?**

Yes, if necessary.

**Can I do laundry?**

Yes, you can do laundry, if necessary.

**Can I make infant formula with tap water?**

No. Not until the water is deemed completely safe.

**Can my pets drink the water?**

Use bottled water for pets. No water from the tap should be consumed.

**What about ice cubes?**

You can consume ice cubes made at home with South Milwaukee tap water if they were made before Friday. Do not use and dispose of any ice cubes that were made after early Friday morning, and do not use ice cubes dispensed from an automatic icemaker until further notice that the tap water is safe to consume.

**Who do I call if I have more questions?**

Contact the South Milwaukee Health Department at 768-8055.
